State Epidemiology Outcomes Workgroup

November 2, 2006
9-11 a.m.
DSAMH Rm. 314

Members in Attendance: Christy Porucznik, Ed Ho, Angela Smart, Tricia Winder, Brenda Ahlemann, Craig PoVey, Steve Harrison, Ron Harrell, Barbara Sullivan

Members Excused: Verne Larsen

Minutes

Welcome & Introductions
➢ Craig welcomed all and introductions were made.

Agenda Item: Review of Minutes
➢ Minutes were reviewed by the workgroup.

Agenda Item: SEOW Maryland Meeting- Binders available/online
➢ If you haven't received a binder, there are several still available.

Agenda Item: Reports – Monthly Charter
➢ All reports are up to date.

Agenda Item: Contract Update
➢ RFP for a consultant is almost finished.
➢ The Health Dept contract is still waiting for signature.

Agenda Item: PNA /SHARP Update
➢ The survey is in the process of being printed.
➢ Contact Steve if you are interested in an item dictionary for the survey.
➢ The survey will be administered the first of February through the end of March in 2007.

Agenda Item: State Epi Profile
➢ The draft is due this month!
➢ Ed created a table (used for Louisiana) that shows how they considered different data sources. Ed will email this document out to the workgroup.
➢ Ed reminded the group to be mindful of what is pertinent/relevant to CSAP's goals for the SPF SIG when gathering data sources.

Action Item: Review the Louisiana document as a model for Utah. Email Ed feedback on what should be considered relevant data collection or not for Utah.

Agenda Item: SEDS
- ➢ This database helps decide what types of data are relevant or not.
- ➢ Steve Harrison has a list of indicators that were considered, but not used in SEDS. Steve will email the list to the workgroup.
- ➢ Ed will take a look at the database and see to what year the data goes.

Non-Agenda Item: Archival Indicators
- ➢ Steve created an Excel spreadsheet to collect indicators by county and state.
- ➢ Data can be compared county by county.
- ➢ Contact Steve if you would like to see this document.

Agenda Item: Indicators Table
- ➢ Christy came up with a data collection matrix to gather Utah data. The matrix includes morbidity, mortality, use and initiation gathered by age (youth, adult, and senior).
- ➢ Christy will send the matrix out to the workgroup.
- ➢ Ed will fill the SEDS data into the matrix.
- ➢ Steve will email Christy the list of data sources that we currently have access to.

Action Item: Please look a t the matrix and tell Christy which data source gaps your agency can fill.

Agenda Item: Epi Profile Draft Due Date
- ➢ Christy will take charge of filling in the gaps sent and enter them into the matrix.
- ➢ Christy will re-send the completed matrix before the next meeting so that the workgroup members can come prepared to identify any gaps in data.

Next Meeting: Thursday, December 7, 2006, 9am
DSAMH Rm 314
